

STEAMROCKET COSMIC CARTOGRAPHERS

Build Your Star Wheel

1. Cut out all the pieces from both sheets, including the viewer window.
2. Fold the viewer along the dotted lines.
3. Tape the sides to hold the viewer together.
4. Place the star wheel inside the viewer.

- How to Use It
1. Find today's date on the wheel.
 2. Find the current time and line it up with the date.
 3. Hold the wheel so the direction you're facing matches the direction on the viewer.
 4. Look through the window to see which stars and constellations are visible!
